Bart:

Just an extra note from me, and Dan Carter. We are so proud of our facility at East Maryville Baptist Church. You would never believe how much the Multi-Purpose Building is being used every day!! The church is growing. We are having activities almost every night in the gym. Sometimes, we think back and wonder how in the world did we make it before the building and the renovation.

I hope, sometime, when you are passing, to stop in...Dan and some of the men at the church have finished the basement. We now have four new, beautiful, classrooms...and on the other end is for student ministry....it is really awesome. We sure would love for you to stop in and see what a wonderful place it is.

Personally, I got a lot of painting experience. Dan did tremendous, but he was having some physical issues and could not do much painting, but I did recruit me some help.

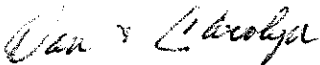

You and your employees was wonderful to work with.....I see you are doing a lot of different projects and every time I see that ( a magazine we get) I just breathe a prayer of thanksgiving for you and your company.

During the month of January, we finally finished the last of our renovations. The Senior Adult Hallway ( where you all met for a lot of your meetings ) We painted the hallway to match the worship center ( celery color) and painted the 3 classrooms the color, Summer Suede ( the tan color in the Multi-purpose) and put carpet tiles down. Needless to say, that made a tremendous difference.....So now, we are resting.....well a little. Dan and the Ramp Ministry was busy this week catching up on the ramps that people needed.

Just wanted to tell you about the wonderful things at the church. The main thing is, God is stretching and growing us as a body.... And people are coming to know Christ!! How awesome is that!!

When you do stop in, I sure hope we are there to do the walk through with you.

Give our regards to the rest of your team!!!

Dan and Carolyn Carter
